

Venue The Course will take place online

University credits A maximum of 2 academic credits (in accordance with the European Credits Transfer and Accumulation System - ECTS) will be awarded upon completion of the Course, if the final test is passed and the attendance requirement of at least 90% of the classes is met

Certificate of Attendance At the end of the Course only participants who have attended at least 90% of the classes, have passed the final examination and have paid the tuition fee, will receive a Certificate of Attendance including the University Credits acquired

Fees € 322,50 (three hundred and twenty-two and fifty cents). One scholarship will be awarded to the best ranked candidate

Application and Registration Application available at the following link <http://www.santannapisa.it/eura/application>

International Winter School

THE REGULATION OF ROBOTICS & AI IN EUROPE: LEGAL, ETHICAL AND ECONOMIC IMPLICATIONS

30 November-5 December 2020

<https://www.eura.santannapisa.it/winter-school>

The Winter School is part of a three-year project that was awarded in the framework of the Call for proposals 2018 - EAC/A05/2017 under the Jean Monnet Activities of the Erasmus+ Programme – Jean Monnet Centre of Excellence on the Regulation of Robotics and Artificial Intelligence.

Aims

The Winter School will provide participants with an advanced understanding of the European framework within which robotic and AI technologies are to be developed, marketed and used.

Such technologies represent a novel kind of applications that has to be fitted within a pre-existing framework of legal standards, and socio-ethical beliefs and principles. Robots developed by research laboratories and industries across Europe need to comply with existing regulation, be respectful of – and promote – existing rights as recognized by the Charter of Fundamental Rights of the European Union (CFR), abide a responsible research and innovation approach and take into account existing – social – needs and desires. It is therefore essential, both for engineers designing such applications and for lawyers and social scientists seeking to acquire relevant professional skills to be able to counsel roboticists and robotic enterprises, to acquire an exact understanding of all the different profiles and of interdisciplinary interactions.

Training objectives

The Course will provide students with a solid background and methodological approach to:

- > enter the market for consultancy services to businesses developing robotic and AI products
- > undergo independent research in law and technology
- > understand the non-technological issues to take into account in robotic products design.

Organiser

The coordinator of the Winter School is Dr. Bertolini, Assistant Professor of Private Law at SSSA, and one of the leading experts in the regulation of robotics and AI in Europe. Dr. Bertolini advised the European Parliament and Commission as well as the World Economic Forum and the OECD on multiple occasions, in particular on issues regarding the regulation of robotics, liability and risk management and product standardization. His research is widely covered by national and international press, including The Economist, The Times, The Guardian, BBC Radio, Wired, Motherboard, Robotic Business Review, Corriere della Sera, Sole 24 Ore, La Stampa, Quotidiano Nazionale, Quattroruote.

Teaching Body and Program

The teaching body includes Lawyers, Engineers, Philosophers, Economists, Business Experts, and Social Scientists, many of which directly participated in the RoboLaw project and the Jean Monnet Module Europe Regulates Robotics, to provide the most interdisciplinary perspective.

- > Carlo Alberto Avizzano, Aggregate Professor in Robotics, SSSA, Pisa, Italy
- > Andrea Bertolini, Assistant Professor in Private Law, SSSA, Pisa, Italy
- > Lorella Bianchi, Legal Officer, Italian Data Protection Authority
- > Maria Chiara Carrozza, Full Professor in BioRobotics, SSSA, Pisa, Italy
- > Edoardo Chiti, Full Professor in Administrative Law, Università gli studi della Tuscia, Viterbo, Italy
- > Mark Coeckelberg, Full Professor in Philosophy, University of Vienna, Austria
- > Alberto Di Minin, Associate Professor in Management, SSSA, Pisa, Italy
- > Sabine Gless, Full Professor in Criminal Law, University of Basel, Switzerland
- > Arianna Martinelli, Assistant Professor in Economics, SSSA, Pisa, Italy
- > Luke McDonagh, Assistant Professor of Law, London School of Economics, UK
- > Andrea Mina, Associate Professor in Economics, SSSA, Pisa, Italy
- > Alessandro Nuvolari, Full Professor in Economic History, SSSA, Pisa, Italy
- > Erica Palmerini, Associate Professor in Private Law, SSSA, Pisa, ITALY
- > Giuseppe Turchetti, Full Professor in Management, SSSA, Pisa, ITALY
- > More speakers to be announced soon!

The updated program and list of speakers is available at the following link:
